

**COSMOS**  
A LIFETIME EXPERIENCE

## **M/S COSMOS, A LIFE-LONG DREAM.**

A stunning vessel that combines the ancient craftsmanship of Greek shipbuilding in its highest evolution expression, together with everything that is contemporary in the art of living naturally and healthy.

A human scale environment, where luxury is omnipresent but knowingly understated.

## A one-of-a-kind

Designed with elegance, attention to details and lavish amenities, M/S Cosmos is aiming to ensure the highest standards of Mediterranean hospitality. Having used some great interior design skills inside a predefined structure from an older era, we introduce to our clients a vessel that goes beyond the standard concept.

Our belief is that a yacht should be one with its surroundings, thus we are confident that we blended architecture and design to meet nature on its terms.

Your experience starts from the moment you step on M/S COSMOS. The exterior space boasts a very spacious Burma Teak sundeck with three large tables at the stern and bow, decked all around with mattresses, cushions and sunbeds. At the far front of the bow, there is our beautiful bell ship with the Cosmos logo and the image of St Nicholas, the protector of seamen, engraved on it.

The interior of the upper deck offers a large dining table situated near the all-day buffet and bar, so guests can benefit of the amenities on offer (TV, DVD player, music system with extensive collection, etc) and the coffee and tea assortments at their disposal.

At the lower interior, COSMOS features four beautiful cabins, each with a distinct identity. The whole level radiates harmony and calm, complemented by the subtle essence of lavender. All beds on the ship are equipped with COCO MAT mattresses, made from 100% natural hypoallergenic materials (seaweed and coconut fibers) making sure our guests will enjoy a blissful sleep while cruising with M/S COSMOS. We offer our guests also a pillow menu, with a wide variety for each sleeping type, as well as slippers, towels, bedlinen and blankets, all 100% natural.

In our bathrooms, all cosmetics and personal hygiene products are from Greek consecrated manufacturers, and all natural and of exceptional quality.

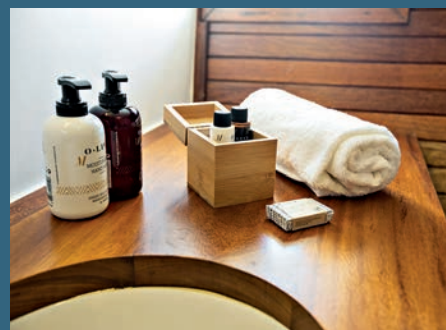

## Our unique concept

The natural surroundings are omnipresent: our Aegean Sea, the most history-filled sea of the world, famous for its natural wonders and man-made splendor. We tried to showcase all this by creating a suitable mean to explore it elegantly and sustainably, while enhancing the beauty unfolding in front of the eyes.

We plan our voyages to be a statement of utmost comfort, style and hospitality, the Experience of a Lifetime. What we offer is the perfect opportunity to refresh your senses, fill your heart with unforgettable memories, while enjoying the comfort and privacy of your private yacht.

# Our commitment to Green, Ethical, Sustainable Tourism

We strive to leave behind the minimum carbon footprint.

It started with the Beginning. Every effort was made to use as much as possible local materials or reconditioned wood for the vessel reconstruction, timber from controlled foresting and local workmanship.

It continues while we sail. Most of our food offered is from organic, fair-trade and local sources, while our Chef is striving to use in season produce and buys local in the ports of call.

Our cleaning products are certified as biodegradable. Renewable energy from the photo-voltaic batteries support the ship's energy consumption.

We also reduced to the minimum the use of single-use plastics on board and do waste sorting and recycling on our voyages. We also try to impact positively on the local communities by supporting the cleansing of our seas and the marine environment through various volunteering activities.

# Our hand picked itineraries (weekly)

Having sailed the Greek seas since we were children, we used the inspiration given by these journeys to Suggest:

Weather permitting always! Itineraries may change according to prevailing weather conditions with plenty alternatives
